

**Flat Flanged Ends**

Thickness mm	$Di$ (mm)	$ri$ (mm)	Material
3	380 - 1500	100 maximum	Carbon Steel
4	380 - 2000	125 maximum	Carbon Steel
5 - 6	380 - 3000	150 maximum	Carbon Steel
8 - 10	380 - 4000	150 maximum	Carbon Steel
12 - 15	900 - 6000	150 maximum	Carbon Steel
16 - 25	1200 - 6000	150 maximum	Carbon Steel

Thickness mm	$Di$ (mm)	$ri$ (mm)	Material
3	380 - 1500	100 maximum	Stainless Steel
4	380 - 2000	125 maximum	Stainless Steel
5 - 6	380 - 3000	150 maximum	Stainless Steel
8 - 10	380 - 4000	150 maximum	Stainless Steel
12	900 - 6000	150 maximum	Stainless Steel
15 - 20	1200 - 6000	150 maximum	Stainless Steel

The above thickness to diameter is for guidance only.

Flat Flanged Ends can be produced in a full range of materials.

Due to the stresses induced in the forming process flat flanged ends are never entirely flat.

The maximum Straight Flange (SF) we can accommodate is 50mm.

Tolerance on circumference + / - 3mm.
